ATTENTION FISHERMEN: Lake Brittle opens on March 15th!!!! Night crawlers, minnows, and boat rentals will be available. OPEN 7am – dusk Thursday – Monday, CLOSED Tuesday & Wednesday until Memorial Day.

Fishermen are already trying to catch the big one.

Lake Brittle is a 77-acre impoundment and was constructed in 1953 as a public fishing lake. It offers a peaceful setting, good fishing, picnicking for the family, and abundant nature for the wildlife enthusiast. The lake's average depth is about seven feet and it has a maximum depth of 25 feet near the spillway tower.

March 15th... where are you??

Lake Brittle supports a warm water fish community including largemouth bass, bluegill, red ear sunfish, black crappie and channel catfish. The lake has been stocked annually with walleye since 1979. Flathead catfish were stocked in 1990 and 1994 to control the abundant sunfish population and undesirable species such as brown bullhead and gizzard shad, which managed to proliferate to produce large populations.

Lake Brittle is located just to the southeast of New Baltimore off of Route 29/Route 15. Signs for Lake Brittle will be seen as you reach Route 600 intersection. Take Route 600 (Broad Run Church Rd.) east to Route 793 (Shepherdstown Rd.). Route 793 will take you to the lake.

THE POOL building is under roof. The main pool and baby pool are in the ground awaiting the white coat. Put OPENING DAY – Memorial Day weekend on your calendar NOW!

<http://www.fauquiercounty.gov>**Warrenton Caboose Volunteers**

For more than a century the railroad caboose was a fixture on the end of freight trains. The real purpose of the caboose was to provide a sheltered vantage point from which trainmen could watch the cars ahead, sleep, cook and eat their meals, and do their paperwork. It served as the working headquarters of the freight conductor and his rear brakeman.

Although the "little red caboose" is now a thing of the past, we can still enjoy its entire splendor on the Warrenton Branch Greenway. Resting proud at the 4th Street trailhead, the vintage 1969 Norfolk & Western steel cupola caboose has been restored to its original operating condition and serves as a showcase of Warrenton's railroad heritage and railroad history in general.

The restoration of the Warrenton caboose was a community effort accomplished over a three-year period. In all, over 2,500 volunteer hours, the support of 35 businesses, and donations totaling in excess of \$50,000 went into the restoration effort. It was truly a "total community effort." Great efforts were made to restore the caboose to its last "in service" condition. That is to say, the most recently used interior and exterior look and functionality. Volunteers met nearly every Saturday for two years to work in, on, and around the caboose, transforming a valuable part of railroading history.

We invite you to stop by the caboose and enjoy a tour. We also encourage you to get involved with all of the railroad activities on the Warrenton Branch Greenway. You can be assured that there is always something to do, whether it is giving a history tour, painting a railroad structure, maintaining some land-

scaping, or simply helping out at an event at the caboose. The success of the caboose and the continuing support of other railroad related activities is due to the generous volunteering of time and resources on the part of citizens of the community. Contact Fauquier County Parks & Recreation at 540-347-6896 to lend a hand.

Each swimming lesson session includes classes given according to the American Red Cross standards. Each session is for 2 weeks, Monday through Thursday, with Friday as a makeup day for inclement weather. All sessions will be held at the Bealeton Station Pool, located at Bealeton Station Apartments, Route 17, in Bealeton (behind the office). The shallow end of the pool is 3 feet deep.

All three levels will also learn how to be safe while around water. Learning to be safe is a big part of learning how to swim. Resident/Non-Resident fee: \$65/98
